Full-Stack Engineer with proven experience building and scaling robust web and mobile applications using **React.js**, **React Native**, and **Node.js**, with a strong focus on performance, security, and delivering user-centered solutions across **fintech**, **healthcare**, and **e-commerce** industries.

## CORE TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, Vue.js, Redux, HTML/CSS, Tailwind, MUI
- **Backend & APIs:** Node.js, .NET, Nest.js, Express.js, RESTful APIs, GraphQL, Firebase
- **Mobile:** React Native, Flutter
- **Database:** MongoDB, PostgreSQL, MySQL
- **Cloud & DevOps:** AWS, Docker, CI/CD, Kubernetes, Terraform
- **Testing:** Jest, Cypress, Mocha
- **Tools:** Xcode, Android Studio, Git/GitHub, Gitlab, Agile/Scrum, WebSocket, Figma

## PROFESSIONAL EXPERIENCE

**Healtether** – Full-stack Engineer | Mumbai, India

May 2024 – Present

- Built a hospital patient app, improving engagement and scheduling by 40%.
- Developed an admin dashboard, reducing manual workload.
- Optimized performance, cutting load time by 60%.
- Integrated real-time notifications, reducing missed appointments.
- Built cross-platform features with **React**, **React Native** and **Node.js**.
- Implemented secure authentication and HIPAA-compliant data protection.
- Optimized database performance, improving query speed.

**Moniepoint** – Mobile Engineer (React-Native, Contract) | Lagos Nigeria

Feb 2024 – Jan 2025

- Built **React Native** payment system for 100K+ users, reducing processing time by 40%.
- Improved app performance by 45%, resulting in a 20% boost in user engagement.
- Integrated real-time **WebSocket** alerts, halving latency and enhancing responsiveness.
- Adopted TypeScript across the mobile codebase, reducing runtime errors by 30%.
- Led A/B testing initiatives, contributing to a 20% increase in feature conversion.
- Mentored junior **React Native** devs, improving team productivity by 25%.
- Improved code quality with reviews and best practices, reducing bugs by 30%.

**Dreamtech Labs** – Frontend Engineer | California, US

June 2022 – Jan 2024

- Boosted front-end performance by 15% through optimization and monitoring
- Built dynamic, high-traffic web interfaces using **React.js**, improving user engagement.
- Collaborated with seniors to deliver top-notch application modules
- Stayed ahead of the curve with latest releases and industry developments
- Designed and implemented a new website architecture
- Improved website load times by 25% through optimization techniques
- Built and maintained multiple high-traffic e-commerce websites

**Carrotsuite** – Mobile Engineer (React-Native) | Lagos, Nigeria

**Mar 2021 – Feb 2023**

- Developed 2+ **React Native** apps, serving 15,000+ users, improving app stability by 30%.
- Collaborated with the design team to create a new mobile app design
- Improved app performance by 30% through optimization techniques
- Worked with the backend team to integrate APIs and ensure seamless user experiences
- Participated in code reviews and contributed to the improvement of the codebase
- Implemented accessibility features to ensure WCAG compliance
- Collaborated with the QA team to ensure high-quality code delivery

**Summitech** – Full-stack Engineer | Lagos, Nigeria

**Feb 2020 – Jan 2021**

- Built scalable web apps with **React, Node.js**, PostgreSQL, improving performance by 30%.
- Developed RESTful and GraphQL APIs for seamless frontend-backend communication.
- Implemented JWT and OAuth for secure authentication and user access.
- Optimized database queries, cutting response times by 40%.
- Deployed with AWS, Docker, and CI/CD, ensuring smooth automation.
- Worked in Agile/Scrum teams, accelerating development and feature rollout.
- Integrated unit and end-to-end tests (Jest, Cypress) for reliability.

---

## EDUCATION

**B.Sc. Computer Science**

**Sep 2019 – Oct 2023**

Nnamdi Azikiwe University

- Specialization: Software & Automation
- Thesis: "Innovations in Sustainable Engineering Practices"

---

## CERTIFICATIONS

- **React Developer Certification:** Coursera (2018 – 2019)
- **JavaScript Advanced Training:** Udemy (2017 – 2018)

---

## SUMMARY OF IMPACT

- Delivered scalable web and mobile apps across **healthcare, fintech, and e-commerce** sectors.
- Boosted user engagement and app responsiveness with real-time features and performance tuning.
- Led cross-functional collaboration across design, QA, and backend teams to streamline delivery.
- Mentored junior developers, improved team productivity, and enforced coding standards.
- Conducted thorough code reviews, reducing production bugs and ensuring maintainable codebases.
- Successfully contributed to remote teams across **Nigeria, India, and the U.S.**, enabling fast and reliable product rollouts.

---

## AWARDS

**3rd Place – Science & Tech Exposition (2022)**

- Recognized for developing an innovative web-based automation project that showcased real-time data processing and user interactivity. The project laid the foundation for my transition into full-stack development, sparking deeper interest in scalable and user-focused software solutions.
